Hydrocarbon Coating

**Proprietary Adhesive** 

**ADL Insulflex, Inc.** A member of the ADL Group.

Silica Blanket with Adhesive Backing

Fire protection, high grade welding blanket

# HAZARD COMMUNICATION SAFETY DATA SHEET

1. Identification

Product Name: Synonyms or Product Family:

CAS Number:

Recommended use: Restriction on use: Manufacturer/ Supplier:

Address:

Telephone:

Fax:

## 2. Hazards Identification

OSHA/HCS status:

While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product. Not classified

Classification of the substance or mixture: GHS Label Elements: Signal Word Hazard statements Precautionary statements: Prevention Response Storage Disposal Supplemental label elements Hazards not otherwise classified

No signal word No known significant effects or critical hazards.

Not Applicable Not Applicable Not Applicable Emits toxic fumes when heated None Known

#### 3. Composition / Information on Ingredients

Component	CAS Number	Weight %
Amorphous silica	7631-86-9	96%
Hydrocarbon coating		0.3 - 0.5% (% of actual coating as a % of the base silica material)
Proprietary Adhesive		

Doc: 2016-12-15.001

7631-86-9

None Assigned

Component Related Regulatory Information

Component Information/Information on Non-Hazardous Components

#### 4. First Aid Measures

None of the components present in this material at concentrations equal to or greater than 0.1% are listed by IARC, NTP, OSHA, or ACGIH as carcinogen. No additional information available.

Flush for 15 minutes with copious amounts of lukewarm

Primary Route of Exposure: Inhalation	Skin contact, inhalation, ingestion & eye contact. Inhalation of airborne fibers may cause irritation to the mouth, nose and throat.
Skin Contact	Temporary irritation of skin may be produced.
Eye Contact	Slight irritation may be caused in contact with eyes.
Ingestion:	May cause temporary irritation of the digestive tract, but not an expected route of entry in industrial uses.

Description of necessary first aid measures: Eye:

	water. Seek medical attention if irritation persists.
Skin:	Wash thoroughly with warm water and non-abrasive soap.
Inhalation:	Remove person to fresh air and seek medical attention.
Ingestion:	Seek medical attention immediately.

#### 5. Fire Fighting Measures

Suitable Extinguishing Media: Fire Fighting Procedures:	Water spray; carbon dioxide; dry chemical; foam. In a sustained fire, use self-contained breathing apparatus.
Unusual Fire and Explosion Hazards:	During sustained fire irritating and/or toxic gases may be generated by combustion.
Special Protective Equipment and Precautions for Fire Fighters:	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk without suitable training.

#### 6. Accidental Release Measures

Material is a solid.

Dust or loose fibers can be vacuumed or swept with the aid of a dust suppressant.

#### 7. Handling and Storage

Precautions for handling and storage:

Normal warehouse conditions. Particular care should be taken to minimize dust when working with "used" material.

### 8. Exposure Controls / Personal Protection

Exposure Limits:

Component Name (CAS #)	OSHA PEL (8hr	ACGIH TLV (8hr	NIOSH (8hr	IDLH (8hr
	TWA)	TWA)	TWA)	TWA)
Amorphous Silica (7631-86-9)	80mg/m3+% SiO2 OR 20 mppcf	10 mg/m3 (inhalable); 3 mg/m3 (respirable)	6 mg/m3	3000 mg/m3
Hydrocarbon coating and Adhesive System	This product is not considered hazardous as defined by 29 CFR 1910.1200 (OSHA Hazcom Standard)			

#### Page 3 of 5

Engineering controls: None known Personal Protective Equipment (PPE): Wear rubber gloves when handling this product. Personnel that are more susceptible to irritation from fibers or dusts should wear full-body coveralls. Eye and Skin protection: Safety glasses with side shields or chemical splash goggles must be worn to prevent eye contact. A good safety practice is to have an eye wash station readily available near the work area. Wear an approved disposable dust respirator designed for Respiratory protection: nuisance-type dusts. If exposure limits are exceeded or if irritation is experienced, NIOSH-Approved respiratory protection should be worn. Ventilation: Local exhaust ventilation (if needed) to maintain appropriate airborne dust levels.

Solid

## 9. Physical and Chemical Properties

Physical State: Colour: Odour: Ordour Threshold: pH-value: Melting Point: Freezing Point: Initial Boiling Point/ Boiling Range: Flash Point: Evaporation Rate: Flammability (Solid, Gas): **Explosion Limits:** Vapour Pressure: Vapour Density: Relative Density: Solubility: Partition Coefficient: Auto-Ignition Temperature: Decomposition Temperature: Viscosity: Specific gravity:

#### 10. Stability and Reactivity

Reactivity: Chemical Stability:

Possibility of Hazardous Reactions: Conditions to Avoid: Incompatible Materials:

Hazardous Decomposition Products:

Not Applicable Product is stable at normal temperature and storage conditions None Known Base Silica Material – Basic phosphates, hydrofluoric acid, and some oxides and hydroxides. Adhesive – Avoid strong oxidizers and strong acids. (Coating & Adhesive): Combustion of the coating and adhesive produces carbon monoxide and carbon dioxide and possibly other compounds of unknown composition.

#### Material is considered inert. See Section 4 See Section 4

# **11.** Toxicological Information

Signs and Symptoms of Overexposure: Acute Effects: Eye Contact: Off-White or tan None Not Applicable Not Applicable >3000°F Not Applicable 4046°F Not Applicable Not Applicable Not Applicable Not Applicable Not Determined Not Determined Not Applicable Insoluble Not Applicable Not Applicable Not Applicable Not Applicable 2.20

Skin Contact: Inhalation: Ingestion:	See Section 4 See Section 4 See Section 4
Chronic Effects and Carcinogenicity:	There are no known chronic health effects associated with use of this product under normal working conditions. No component present in this material at concentrations equal to or greater than 0.1% is listed by IARC, NTP, OSHA, or ACGIH as a carcinogen.
General Product Information	Material which has been subjected to elevated temperatures (>1800°F) may undergo partial conversion to cristobalite, a form of crystalline silica, which may cause respiratory illness. The amount of cristobalite present will depend on the temperature and the length of service. The OSHA PEL for cristobalite is 0.05 mg/m3 (respirable).
Medical Conditions Aggravated by Exposure:	Chronic respiratory and skin conditions may temporarily worsen from exposure to this product.
Acute Toxicity Values:	None Known

#### **12.** Ecological Information

No information is available; however, toxicity is expected to be low, based on the insolubility in water of the product.

#### **13.** Disposal Considerations

Disposal method:

User should follow normal methods of disposal in accordance with any governmental regulations.

#### **14.** Transport Information

UN Number:	None
UN Proper Shipping Name:	None
Transport Hazard Class(es):	None
Packing Group:	None
Environmental Hazards:	None
Transport in Bulk, if Applicable:	None
Special Precautions:	None

#### **15.** Regulatory Information

Safety, health and environmental regulations specific to the product: WHMIS Hazard Class: Harmonized Code:

Non- regulated 7019.39.12

#### 16. Other

Users are advised to ensure that this information is brought to the attention of their employees handling the product. The information given herein is believed to be reliable. However, ADL Insulflex, Inc. makes no warranties as to its accuracy or completeness and disclaims any liability in connection with its use. ADL Insulflex, Inc.'s obligations shall be only as set forth in ADL Insulflex, Inc.'s standard terms and conditions of sale for this product. In no case will ADL Insulflex, Inc. be liable for any incidental, indirect or consequential damages arising out of the sale, resale, use or misuse of the product.

Users of ADL Insulflex, Inc. products should make their own evaluation to determine the suitability of each such product for the specific application and to establish safe handling and installation procedures.
