Statement on California Prop 65 Initiative

To whom it may concern:

The California Proposition 65 Initiative is designed to warn consumers and end users about possible hazardous chemicals contained in all types of industrial products and consumer goods. It stipulates that not only should manufacturers and providers clearly identify products of concern, but they must also specify the chemical of concern, and indicate the nature of the concern ranging from causation of cancer to reproductive harm and birth defects.

The following Insulflex® products have been deemed to be **California Prop 65 compliant** based on our research, broad industry knowledge, and a search of the CAS numbers, and chemical names on the Prop65Warning website administered by the State of California: Pyrojacket, Pyrotape, Pyrojacket VCO, EAF Cable Cover, Pyrosil Tape, Pyroblanket, Flexgard, Cool Blue Sleeve, PyroRope, Silicaflex, Silicaflex Tape AB, Aluminized Silicaflex, Thermosleeve B, Thermosleeve S, Odourless EndDip, Pyrosealant, Pyreflect, and Fiberflect.

For more information, please visit www.prop65warnings.ca.gov , or contact us for further clarification.

Sincerely,

ADL INSULFLEX, INC.
